

Homestay Report 3

Kanako Kabe

I went to a local shopping mall with my host family to play a tag game called "Laser Tag." I did the laser tag game for the first time, so I was confused at first, but it was very fun! After that we went for shopping, and I bought some snacks.

Then we went to my host student's friend's house to eat dinner with other friends.

His house is very big and I hanged out with those friends!

It was the first time for me to stay in a local family's house and hang out with the host family, so it was a good experience for me. Besides my host was very kind! It was really fun!!

By the way, I took a ride on a train, which was different from a Japanese train. Many seats face the direction opposite to the traveling direction. Also, trains are often delayed in America.

Nowadays, many trains are running, but I think that people use more cars than trains in America.
